

The following are the SUGGESTED limits for the different leagues we run for our dart leagues in the Sioux Falls area. Once we fill a certain league, we will go to the next one OR create a comparable league if there are enough teams to fill them. There WILL be some exceptions, there may be someone higher than the suggested PPD in your league, but we will do our best to keep each individual league as competitive as possible for the enjoyment of all who are participating in them. This is why it is so important to fill out your league sheets as accurately as possible, with the best KNOWN PPD and which specific league you threw in the previous season.

**Amber** – Suggested total team points should not exceed 62. Max player PPD of 18.00

**Gold** – Suggested total team points should not exceed 62. Max player PPD of 18.00

**Yellow** – Suggested total team points should not exceed 62. Max player PPD of 18.00
